

Christin A. Boothe 35 Years old

Surgery Date: 06-07-2005

Annular Tear with Herniated Disc

Severe Incapacitating Back Pain.

“The pain in my lower back and legs was so severe I could not work. I depended heavily on medications and various therapies for pain management. Often I would be at home in tears because of the pain. I never thought that I would be able to work or enjoy backpacking or fly-fishing again”

Kineflex L Artificial Disc Replacement L5-S1

“My Life is night and day different. The majority of my pain is gone. I have full range of motion and am able to enjoy daily life with minimal discomfort”

Christin is now 4 years post-op. She runs a non-profit organization that feeds and gives community support to full time caregivers in our area. She is able to stand for 10-12 hours and lift up to 65 pounds. She has also completed a 27-mile backpacking trip and regularly fly-fishes. Please visit her website www.comfortfoodco.org
